

ACTION ALERT: RALLY TO END WATERFRONT DEATHS

Fight for your life. Sign for your life.

Big business lobbyists are continuing to block key safety provisions in our stevedoring code of practice.

We need you to back the MUA's submission for a strong stevedoring safety code (NSCOP) by supporting our submission to Safe Work Australia.

Fight for your life - NO more fatalities! The highest safety standards possible must be implemented on the waterfront.

United we stand so that no more wharves die at work. We are fighting for basic human values – Life before profit, families and society before corporate greed.

The MUA will be seeking your support for our submission process, kicking off after Easter.

Join our nationwide rallies opposing the Australian Chamber of Commerce and Industry who are leading the charge against waterfront safety.

The MUA and concerned members of the community will rally on **Tuesday 26 March** to demand a National Stevedoring Code Of Practice and oppose ACCIs profit before life view

Rally: Chamber of Commerce, NT

Suite 1/2 Shepherd Street,

Darwin

1100 am
